

Light the Night

for the Shore CommUnity

An evening of remembrance and celebration of life for loved ones who may have passed before us, for local shore families and surrounding Wall Township and Manasquan Communities.

Through Wall High School DELTA Leadership Club member, Olivia Gmitter's mission, we hope to bring Communities together, in Unity, who have lost so many loved ones over the years in neighboring southern Monmouth County shore towns due to substance abuse and mental health conditions.

We will set up luminary bags, lit by tealights which family and friends may decorate or write a loved one's name who has lost their battle with substance use disorder and/or mental health issues. They will be set up throughout the Allaire Community Farm.
